Subject: Re: Question about your FOIA request for the most Clean Air Act State Implementation Plan submittal

Dear Ms. Lo,

Thank you for the response, and also for the phone call. Obviously, my understanding of the format of SIPs was flawed. Would it be correct to say that there is no single "SIP" at any one time, but rather various elements in various stages of review? And that I can download most of those separately through the California Air Resources Board Website?

I would like to withdraw my request, based on this understanding, but thank you very much for your help.

Thank you,
Louise Dyble

Dr. Dyble,

I understand that you have made a Freedom of Information Act (FOIA) request for the following:

“I would like a full copy of the Clean Air Act State Implementation Program for California that was most recently submitted for review. I would prefer it in an electronic file or files, such as a pdf, sent via email.”

We would like to get some clarification on what you are interested in seeing. EPA receives many State Implementation Plan (SIP) submittals from California over the course of the year and they cover a wide range of topics such as specific stationary source rules, permitting rules and plans. We do not receive submittals that include the whole California SIP.

I have left you a voicemail message regarding this as well. Please give me a call or send me an email.
